PROFESSIONAL SUMMARY

Over the past 5 years I have been working with React, JavaScript and Typescript, developing libraries and SPA that incorporate different Micro Front Ends. I am committed to collaboration and solution oriented problem solving.

As a Full Stack Developer, I worked with PHP language and frameworks such as Laravel and Symfony, along with Relational Databases. My expertise also extends to Agile methodologies, Version Control Systems and CI /CD processes. I enjoy learning new technologies.

WORK HISTORY

FRONT-END DEVELOPER

Kuorum | Barcelona | April 2023 - June 2023

- Improved the quality of React, TypeScript, and CSS (SASS) by conducting code analysis.
- Successfully delivered projects on time, following Agile Methodologies.
- Developed efficient and reusable code with React.
- Enabled accurate project tracking and reporting in GitHub and Jira.
- Enhanced website navigation with clear user experience (UX) mapping.
- Facilitated code reviews and pair programming sessions to ensure production of high quality code.
- Collaborated with web designers to align with intended visual design.
- Stack: Tailwind, Typescript, React, Git, Agile Methodologies, AWS, Jest (testing)

FRONT-END DEVELOPER

DBS Bank - Singapore | Barcelona | February 2022 - December 2022

EDUCATION

EXPERT Programming Courses

Pluralsight

Barcelona / Spain | January 2020 – Current

EXPERT Relational Databases

London Education Center

Madrid | July 2014 – December 2014

EXPERT Structural Programming Languages

London Education Center

Madrid / Spain | July 2014 – December 2014

EXPERT Operation Systems and Applications

London Education Center

Madrid / Spain | July 2014 – December 2014

EXPERT Mobile Application with Mongo, Express, Angular and Node

Trazos

Madrid / Spain | January 2014 – May 2014
